FULL STACK DEVELOPER

Highly motivated final-year bachelor's student with practical experience in the MERN stack, passionate about building dynamic, user-centric web applications. Skilled in responsive design, API integration, and database management, I focus on delivering scalable, high-performance solutions. With a growing interest in cloud computing, DevOps, and artificial intelligence, I am eager to explore how emerging technologies can enhance web development and user experiences. Dedicated to continuous learning and advancing technologies, I aim to contribute to innovative, impactful projects in agile environments, combining my skills in full-stack development with cutting-edge AI applications.

EDUCATION

Bachelor of Computer Application (BCA)   **Apr 2021 - Present**

LUMBINI ICT CAMPUS, Gaindakot
